

1. Record Nr.	UNINA9910707242303321
Autore	Brosge William Peters <1920-2006, >
Titolo	Geologic interpretation of reconnaissance aeromagnetic survey of northeastern Alaska : magnetic profiles indicate that northeastern Alaska may be divided into five areas, each of which has a distinctive magnetic character / / by William P. Brosge, Earl E. Brabb, and Elizabeth R. King
Pubbl/distr/stampa	[Washington, D.C.] : , : United States Department of the Interior, Geological Survey, , 1970 Washington : , : United States Government Printing Office
Descrizione fisica	1 online resource (ii, 14 pages)
Collana	Geological Survey bulletin ; ; 1271-F Contributions to general geology
Soggetti	Geomagnetism - Alaska Aerial surveys - Alaska
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Title from title screen (viewed September 15, 2014).
Nota di bibliografia	Includes bibliographical references (pages 12-14).

2. Record Nr.	UNINA9910337517803321
Autore	Segura Julian
Titolo	Hypertension and 24-hour Ambulatory Blood Pressure Monitoring / / by Julian Segura
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2019
ISBN	3-030-02741-4
Edizione	[1st ed. 2019.]
Descrizione fisica	1 online resource (93 pages)
Collana	Practical Case Studies in Hypertension Management, , 2364-6632
Disciplina	616.132 616.132075
Soggetti	Cardiology General practice (Medicine) Nephrology Diabetes Geriatrics Endocrinology General Practice / Family Medicine Geriatrics/Gerontology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Clinical case 1: Adult Patient with white-coat hypertension -- Clinical case 2: Adult Patient with masked hypertension -- Clinical case 3: Adult Patient with isolated nocturnal hypertension -- Clinical case 4: Adult Patient with isolated diurnal hypertension -- Clinical case 5: Adult Patient with hypertension and OSAS -- Clinical case 6: Adult Patient with pseudo-resistant hypertension -- Clinical case 7: Adult Patient with resistant hypertension -- Clinical case 8: Adult Patient with drug-induced hypotension.
Sommario/riassunto	This book guides readers through the correct use and consequent diagnostic and therapeutic relevance of 24-h ambulatory blood pressure monitoring (ABPM) in a wide spectrum of clinical presentations and different phenotypes of arterial hypertension. On the basis of eight case studies, the author reviews and discusses current guidelines and recommendations aimed at optimizing the diagnostic and therapeutic

approach in commonly encountered real-world clinical scenarios, including challenging cases of white-coat hypertension, masked hypertension, isolated nocturnal or diurnal hypertension, hypertension and obstructive sleep apnea, pseudo-resistant and true-resistant hypertension, and drug-induced hypotension. This handy and practical book provides physicians in the area of general and internal medicine, as well as specialists in cardiovascular risk, valuable insights for optimizing the treatment of these hypertensive patients.
