

1. Record Nr.	UNINA9910707307003321
Autore	Melcher Kevin J.
Titolo	An experimental device for generating high frequency perturbations in supersonic wind tunnels // Kevin J. Melcher and Mounir B. Ibrahim
Pubbl/distr/stampa	Cleveland, Ohio : , : National Aeronautics and Space Administration, Lewis Research Center, , December 1996
Descrizione fisica	1 online resource (12 pages) : illustrations
Collana	NASA technical memorandum ; ; 107385
Soggetti	Supersonic wind tunnels Gusts Inlet flow Wind tunnel apparatus Surges Pressure pulses
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Title from title screen (viewed Aug. 3, 2016). "December 1996"--Report documentation page. "Prepared for the International Congress on Fluid Dynamics and Propulsion cosponsored by the American Society of Mechanical Engineers and Cairo University, Cairo, Egypt, December 29-31, 1996." "Performing organization: National Aeronautics and Space Administration, Lewis Research Center"--Report documentation page.
Nota di bibliografia	Includes bibliographical references (page 12).
