Sommario/riassunto

'Human identity, sexual identity, primary and secondary identification, object choice, narcissism - all of these lie on a continuum with homosexuality, transsexualism, transvestism, heterosexuality and asexuality. Concepts on sexuality and gender are outlined anew in an interplay of theoretical and clinical networks, with the aim of increasing the efficiency of analytic praxis freed from prejudice and monolithic convention.' - the author, from the Foreword
Masculine Scenarios is the third volume in a unique series edited by the author for the Committee on Women and Psychoanalysis of the International Psychoanalytical Association. Providing a forum for exploration and discussion of diverse issues relating to gender constructs, sexuality, and sexual identity, the series brings together an internationally renowned group of contributors trained in the psychoanalytic tradition. Masculine Scenarios concentrates on issues regarding the psychic world of men and male sexuality. The construction of gender identity, the battle of the sexes, transsexualism, homosexuality and masculinity are some of the topics discussed in this inspiring book.

2. Record Nr.	UNINA9910707309803321
Autore	Suresh A (Writer on numeric analysis)
Titolo	Accurate monotonicity-preserving schemes with Runge-Kutta time stepping / / A. Suresh and H.T. Huynh
