

1. Record Nr.	UNINA9910707360603321
Autore	Lachenbruch Arthur H.
Titolo	Periodic heat flow in a stratified medium, with application to permafrost problems // by Arthur H. Lachenbruch
Pubbl/distr/stampa	Washington, D.C. : , : United States Department of the Interior, Geological Survey, , 1959 Washington, D.C. : , : Government Printing Office
Descrizione fisica	1 online resource (iv, 36 pages, 8 pages of plates) : charts
Collana	Experimental and theoretical geophysics Geological Survey bulletin ; ; 1083-A
Soggetti	Earth temperature Frozen ground - Thermal properties Heat - Transmission
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Additional title page description: "A discussion of temperature fluctuations in a stratified medium caused by a periodically varying surface temperature with special reference to the effects of seasonal temperatures variations on gravel fills, the natural active layer and permafrost." Title from title screen (viewed July 23, 2014).
Nota di bibliografia	Includes bibliographical references (page 34).
