

1. Record Nr.	UNINA9910707477203321
Titolo	Business meeting : meeting before the Committee on Environment and Public Works, United States Senate, One Hundred Fourteenth Congress, second session, April 28, 2016
Pubbl/distr/stampa	Washington : , : U.S. Government Publishing Office, , 2016
Descrizione fisica	1 online resource (iii, 311 pages)
Collana	S. hrg. ; ; 114-323
Soggetti	Water resources development - Law and legislation - United States Federal aid to water resources development - United States Public buildings - Washington (D.C.) Armed Forces - Appropriations and expenditures Expenditures, Public Federal aid to water resources development Public buildings Water resources development - Law and legislation Legislative hearings. United States Washington (D.C.)
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Title from title screen (viewed on Aug. 15, 2016). Paper version available for sale by the Superintendent of Documents, United States Government Publishing Office.

2. Record Nr.	UNINA9910299483603321
Titolo	Advanced and Intelligent Control in Power Electronics and Drives // edited by Teresa Orowska-Kowalska, Frede Blaabjerg, José Rodríguez
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2014
ISBN	9783319034010 3319034014
Edizione	[1st ed. 2014.]
Descrizione fisica	1 online resource (XX, 410 p. 284 illus., 161 illus. in color.)
Collana	Studies in Computational Intelligence, , 1860-949X ; ; 531
Disciplina	006.3
Soggetti	Computational intelligence Automatic control Artificial intelligence Power electronics Computational Intelligence Control and Systems Theory Artificial Intelligence Power Electronics, Electrical Machines and Networks
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	Part I: Advanced Power Electronic Control in Renewable Energy Sources -- Part II: Predictive Control of Power Converters and Drives -- Part III: Neuro and Nonlinear Control of Power Converters and Drives.
Sommario/riassunto	Power electronics and variable frequency drives are continuously developing multidisciplinary fields in electrical engineering, and it is practically not possible to write a book covering the entire area by one individual specialist. Especially by taking account the recent fast development in the neighboring fields like control theory, computational intelligence and signal processing, which all strongly influence new solutions in control of power electronics and drives. Therefore, this book is written by individual key specialist working on the area of modern advanced control methods which penetrates current implementation of power converters and drives. Although some of the presented methods are still not adopted by industry, they create new

solutions with high further research and application potential. The material of the book is presented in the following three parts: Part I: Advanced Power Electronic Control in Renewable Energy Sources (Chapters 1-4), Part II: Predictive Control of Power Converters and Drives (5-7), Part III: Neurocontrol and Nonlinear Control of Power Converters and Drives (8-11). The book is intended for engineers, researchers, and students in the field of power electronics and drives who are interested in the use of advanced control methods and also for specialists from the control theory area who like to explore new area of applications.
