Sommario/riassunto

This comprehensive reference covers the principles and techniques used in performing breast elastography, an innovative imaging technology that can dramatically reduce the need for biopsies. The book begins with an introduction of the techniques, followed by sections on how to perform each technique and methods of interpretation, and concludes with more than 60 detailed case studies. Key Features: Includes case studies covering a wide range of breast pathologies and illustrating the use of all available elastography techniques to help radiologists obtain the best images for each pathology

3. Record Nr.	UNINA9910707778803321
Autore	Allen Stewart D.
Titolo	Commonwealth of the Northern Mariana Islands as a fishing community // Stewart D. Allen, Judith R. Amesbury
Pubbl/distr/stampa	Honolulu, Hawai`i : , : Pacific Islands Fisheries Science Center, National Marine Fisheries Service, National Oceanic and Atmospheric Administration, U.S. Department of Commerce, , 2012
Descrizione fisica	1 online resource (iv, 90 pages) : illustrations (some color)
Collana	NOAA technical memorandum NMFS-PIFSC ; ; 36
Soggetti	Fishery management - Northern Mariana Islands Fisheries - Social aspects - Northern Mariana Islands Traditional fishing - Northern Mariana Islands Fishing - Northern Mariana Islands - History Fisheries - Social aspects Fishery management Fishing Traditional fishing History Northern Mariana Islands
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	"November 2012."
Nota di bibliografia	Includes bibliographical references (pages 81-89).
