

1. Record Nr.	UNINA9910707801303321
Autore	Andreani M.
Titolo	A study of the dispersed flow interfacial heat transfer model of RELAP5/MOD2.5 and RELAP5/MOD3 / / prepared by M. Andreani, G. Th. Analytis, S.N. Aksan
Pubbl/distr/stampa	Washington, DC : , : Office of Nuclear Regulatory Research, U.S. Nuclear Regulatory Commission, , 1999
Descrizione fisica	1 online resource (92 pages) : illustrations
Collana	International agreement report ; ; NUREG/IA-0163
Soggetti	Nuclear power plants - Thermodynamics - Computer simulation
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	"Thermal-Hydraulics Laboratory, Paul Scherrer Institute (PSI)." "ETHZ, Nuclear Engineering Laboratory, Swiss Federal Institute of Technology (ETH)." "April 1999." "Prepared as part of the Agreement on Research Participation and Technical Exchange under the International Code Application and Maintenance Program (CAMP)." "G. Rhee, NRC program manager."
Nota di bibliografia	Includes bibliographical references (pages 21-22).
