

1. Record Nr.	UNINA9910707852803321
Autore	Robertson Daniel K.
Titolo	Analysis of lateral and torsional vibration characteristics of beams and shafts with end located rotational masses / / Daniel K. Robertson
Pubbl/distr/stampa	Hampton, Virginia : , : National Aeronautics and Space Administration, Langley Research Center, , May 1984
Descrizione fisica	1 online resource (36 unnumbered pages) : illustrations
Collana	NASA technical memorandum ; ; 84593
Soggetti	Aircraft design Beams (supports) Partial differential equations Rotation Shafts (machine elements) Vibration
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	"May 1984." "Performing organization: NASA Langley Research Center"--Report documentation page.
Nota di bibliografia	Includes bibliographical references (page [33]).
