

1. Record Nr.	UNINA9910707870603321
Autore	Hoffman John S (John Steven), <1950-2012, >
Titolo	Assessing the risks of trace gases that can modify the stratosphere // senior editor and author, John S. Hoffman
Pubbl/distr/stampa	Washington, D.C. : , : Office of Air and Radiation, U.S. Environmental Protection Agency, , 1987
Descrizione fisica	1 online resource (8 volumes) : illustrations
Soggetti	Stratosphere Atmospheric radiation Ozone layer depletion
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	"EPA 400/1-87/001A-H"--V.1-8 PDF cover.
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	v. 1 Executive summary -- v. 2 Chapters 1-5 -- v. 3 Chapters 6-18 -- v. 4 [Appendix A], Ultraviolet radiation and melanoma with a special focus on assessing the risks of stratospheric ozone depletion / edited by Janice D. Longstreth -- v. 5 Appendix B, Potential effects of future climate changes on forest and vegetation, agriculture, water resources, and human health: technical support documentation for assessing the risks of trace gases that can modify the stratosphere -- v. 6 Technical support documentation production projections -- v. 7 Technical support documentation atmospheric science papers -- v. 8 Technical support documentation ozone depletion and plants, current risks and uncertainties of stratospheric ozone depletion upon plants: technical support documentation for assessing the risks of trace gases that can modify the stratosphere.
