Sommario/riassunto

This volume documents the transformation of age-old antisemitic stereotypes into a new form of discrimination, often called "New Antisemitism" or "Antisemitism 2.0." Manifestations of antisemitism in political, legal, media and other contexts are reflected on theoretically and contemporary developments are analyzed with a special focus on online hatred. The volume points to the need for a globally coordinated approach on the political and legal levels, as well as with regard to the modern media, to effectively combat modern antisemitism.
