Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	1991. Contributed record: Metadata reviewed, not verified. Some fields updated by batch processes. Title from PDF title page.
Nota di bibliografia	Includes bibliographical references.
Sommario/riassunto	The report includes proceedings of a workshop sponsored jointly by NIST and the Schools of Technology and Science, Norfolk State University, Norfolk, Virginia, and held in Gaithersburg, Maryland, November 13-15, 1990. The workshop theme was strengthening materials education. Material in the publication can serve as a valuable guide to faculty who are interested in useful experiments for their students. There was a blend of experiments on new materials and traditional materials. Uses of computers in MS&E, experuimental design and an approach to A ystematic materials are among the topics presented.
