

1. Record Nr.	UNINA9910709647003321
Autore	Wilson Thomas P.
Titolo	LTPP pavement maintenance materials : PCC partial-depth spall repair experiment, final report // T. P. Wilson, K. L. Smith and A. R. Romine
Pubbl/distr/stampa	McLean, VA : , : U.S. Department of Transportation, Federal Highway Administration, Research, Development, and Technology, Turner-Fairbank Highway Research Center, , October 1999
Descrizione fisica	1 online resource (118 unnumbered pages) : illustrations, maps
Soggetti	Pavements, Concrete - Maintenance and repair Portland cement - Evaluation
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	"Performing organization: ERES Consultants, a division of Applied Research Associates, Inc."--Technical report documentation page. "Contracting Officer's Technical Representative (COTR): Shahed Rowshan"--Technical report documentation page. "Publication no. FHWA-RD-99-153." "October 1999." Includes tables.
Nota di bibliografia	Includes bibliographical references (page 75).
Sommario/riassunto	"The Strategic Highway Research Program (SHRP) H-106 maintenance experiment and the Federal Highway Administration (FHWA) Long-Term Monitoring (LTM) of Pavement Maintenance Materials Test Sites project studied the repair of partialdepth spalls in concrete pavements. The purpose of partial-depth spall repair is to restore a pavement's structural integrity, improve its ride quality, and extend its serviceable life"--Technical report documentation page.
