

1. Record Nr.	UNINA9910709786203321
Autore	Johnson Victoria
Titolo	Collaborative research on road weather observations and predictions by universities, state departments of transportation, and National Weather Service Forecast Offices // Victoria Johnson [and five others]
Pubbl/distr/stampa	McLean, VA : , : U.S. Department of Transportation, Federal Highway Administration, Research, Development, and Technology, Turner-Fairbank Highway Research Center, , October 2004
Descrizione fisica	1 online resource (73 unnumbered pages) : illustrations
Soggetti	Weather forecasting - Research - United States Highway communications - Research - United States Automobile driving - Information services - Research - United States
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	"Performing organization: Desert Research Institute, Iowa State University, SUNY-Albany, Pennsylvania State University, University of Utah, and Cooperative Program for Operational Meteorology, Education and Training (COMET)"--Technical report documentation page. "Publication no. FHWA-HRT-04-109." "October 2004." "September 2004"--Technical report documentation page. "HRDO-04/10-04(1M)E"--Page 73.
Nota di bibliografia	Includes bibliographical references (pages 61 and 63).
Sommario/riassunto	This report documents the results of five research projects to improve the sensing, predictions and use of weather-related road conditions in road maintenance and operations.
