Sommario/riassunto	Het medialandschap is voortdurend in beweging. Vertrouwde indelingen als die in verschillende infrastructuren en in verschillende media als pers, televisie en radio verliezen meer hun betekenis voor zowel de gebruiker als het beleid. Klassieke instituties als het ochtend- en avondblad en de publieke omroep verkeren in zwaar weer als gevolg van explosief toegenomen aanbod, de soms moordende concurrentie en een steeds vluchtiger publiek dat veel oude loyaliteiten heeft laten varen. Internationalisering, commercialisering en digitalisering zijn slechts een paar van de kernontwikkelingen die de toekomst van het medialandschap bepalen. Deze dynamiek is het gevolg van technologische, economische en sociaal-culturele ontwikkelingen. Maar ook van het mediabeleid en -recht dat reageert op de ontwikkelingen en ze probeert bij te sturen. In deze verkenning, die gelijktijdig met het WRR-rapport Focus op functies: uitdagingen voor een toekomstbestendig mediabeleid is gepubliceerd, analyseren verschillende auteurs van de WRR en het CPB de dominante

economische, sociaal-culturele, technologische en juridische ontwikkelingen die voor de toekomst van het medialandschap van belang zijn.

Sommario/riassunto	Some Islamic scholars hold that Salafism is an innovative and rationalist effort at Islamic reform that emerged in the late nineteenth century but gradually disappeared in the mid twentieth. Others argue Salafism is an anti-innovative and antirationalist movement of Islamic purism that dates back to the medieval period yet persists today. Though they contradict each other, both narratives are considered authoritative, making it hard for outsiders to grasp the history of the ideology and its core beliefs. Introducing a third, empirically based genealogy, The Making of Salafism understands the concept as a recent phenomenon projected back onto the past, and it sees its purist evolution as a direct result of decolonization. Henri Lauzière builds his history on the transnational networks of Taqi al-Din al-Hilali (1894-1987), a Moroccan Salafi who, with his associates, participated in the

development of Salafism as both a term and a movement. Traveling from Rabat to Mecca, from Calcutta to Berlin, al-Hilali interacted with high-profile Salafi scholars and activists who eventually abandoned Islamic modernism in favor of a more purist approach to Islam. Today, Salafis tend to claim a monopoly on religious truth and freely confront other Muslims on theological and legal issues. Lauzière's pathbreaking history recognizes the social forces behind this purist turn, uncovering the popular origins of what has become a global phenomenon.
