

1. Record Nr.	UNINA9910709927203321
Autore	Walters E. Jane
Titolo	Center for Electronics and Electrical Engineering technical publication announcements covering center programs, October to December 1987, with 1988 CEEE events calendar // E. Jane Walters
Pubbl/distr/stampa	Gaithersburg, MD : , : U.S. Dept. of Commerce, National Institute of Standards and Technology, , 1988
Descrizione fisica	1 online resource
Collana	NBSIR ; ; 88-3825
Altri autori (Persone)	WaltersE. Jane
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	1988. Contributed record: Metadata reviewed, not verified. Some fields updated by batch processes. Title from PDF title page.
Nota di bibliografia	Includes bibliographical references.

2. Record Nr.	UNINA9910409682403321
Titolo	Trichoderma : Host Pathogen Interactions and Applications // edited by Anil K. Sharma, Pratibha Sharma
Pubbl/distr/stampa	Singapore : , : Springer Singapore : , : Imprint : Springer, , 2020
ISBN	981-15-3321-0
Edizione	[1st ed. 2020.]
Descrizione fisica	1 online resource (331 pages)
Collana	Rhizosphere Biology, , 2523-8442
Disciplina	579.5677
Soggetti	Mycology Microbiology Plant diseases Biomedical engineering Microbial ecology Plant Pathology Biomedical Engineering/Biotechnology Microbial Ecology Micologia Microbiologia Enzimologia Llibres electrònics
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Chapter 1. Can we define an experimental framework to approach the genetic basis of root colonization? -- Chapter 2. The Vocabulary of Trichoderma-plant interactions -- Chapter 3. Could Trichoderma be a plant pathogen? Successful root colonization -- Chapter 4. Harnessing the perception of Trichoderma signal molecules in rhizosphere to improve soil health and plant health -- Chapter 5. Plant immunity priming and systemic resistance as a mechanism for Trichoderma spp. Biocontrol -- Chapter 6. Systemically induced resistance against maize diseases by Trichoderma spp -- Chapter 7. Induced immunity developed by Trichoderma species in plants -- Chapter 8. Host-Pathogen-Trichoderma Interaction -- Chapter 9. Trichoderma-

Fusarium Interactions: A Bio-Control Strategy to Manage Wilt -- Chapter 10. Use of Trichoderma in management of diseases in North American row crops -- Chapter 11. Potential of Trichoderma spp. for Pest management and Plant Growth Promotion in NE India -- Chapter 12. Deployment of Trichoderma for the management of tea diseases -- Chapter 13. Multipartite interaction of Trichoderma harzianum (MTCC 5179) an endophyte and a growth promoter of black pepper (Piper nigrum L.) -- Chapter 14. Trichoderma spp. in consortium and their rhizospheric interactions -- Chapter 15. Trichoderma interactions in vegetables rhizosphere under tropical weather conditions. .

Sommario/riassunto

This book compiles the latest research in the area of Trichoderma Rhizosphere Biology. It covers topics such as microbial interaction, crosstalk between plants and microbes, interactions with abiotic and biotic factors, and advances in biocontrol agents, biofertilizers and biostimulants. The respective chapters describe innovative ways of adapting fungal communities to improve their survival in highly dynamic environments and agroecosystems. In closing, the book discusses the use of Trichoderma as a bio-growth enhancer and biostimulant for organic agriculture. .
