| 1. Record Nr.           | UNINA9910709972903321   |
| Autore                  | Marroquin J.  |
| Titolo                  | Results of aeroheating DFI and ET design-data test on a 0.0175-scale model 60-OTS conducted in the Von Karman gas dynamics facility (VKF) 40-inch supersonic and the 50-inch hypersonic wind tunnels A & C (IH-97A/B/C) // J. Marroquin |
| Pubbl/distr/stampa      | Houston, Texas : , : Systems Engineering Division, Johnson Space Center, National Aeronautics and Space Administration, , March 1985  |
| Descrizione fisica      | 1 online resource (iv, 164 pages) : illustrations   |
| Collana                 | NASA/CR ; ; 167693  |
| Soggetti                | Wind tunnel tests<br>Aerodynamic heating<br>External tanks<br>Space shuttles<br>Mach number   |
| Lingua di pubblicazione | Inglese   |
| Formato                 | Materiale a stampa  |
| Livello bibliografico   | Monografia  |
| Note generali           | "March 1985."<br>"DMS-DR-2520."   |
| Nota di bibliografia    | Includes bibliographical references (page 37).  |
