| 3. Record Nr. | UNINA9910709986803321 |
| Titolo | Advance data from Vital and health statistics: numbers 71-80 |
| Pubbl/distr/stampa | Hyattsville, Maryland : , : U.S. Department of Health and Human Services, Public Health Service, Centers for Disease Control and Prevention, National Center for Health Statistics, , 1993 |
| Descrizione fisica | 1 online resource (various pagings) : illustrations |
| Collana | Vital and health statistics. Series 16, Compilations of advance data from vital and health statistics ; ; no. 8 DHHS publication ; ; no. (PHS) 94-1867 |
| Soggetti | Family planning - United States Hospitals - Admission and discharge - United States Physician services utilization - United States Drug utilization - United States Health surveys - United States Statistics. United States Statistics, Vital United States Statistics, Medical |
| Lingua di pubblicazione | Inglese |
| Formato | Materiale a stampa |
| Livello bibliografico | Monografia |
| Note generali | "December 1993." |
| Nota di bibliografia | Includes bibliographical references. |
| Nota di contenuto | No. 71. Health care coverage under private health insurance, Medicare, Medicaid, and military or Veterans Administration Health Benefits: United States, 1978 -- no. 72. Visits to family planning service sites: United States, 1978 -- no. 73. Patient profile, National Reporting System for Family Planning Services: United States, 1978 -- no. 74. Visits to family planning clinics: United States, 1979 -- no. 75. Expected principal sources of payment for hospital discharges: United States, 1979 -- no. 76. Blood carbon monoxide levels in persons 3-74 years of age: United States, 1976-80 -- no. 77. 1980 summary: National Ambulatory Medical Care Survey -- no. 78. Drugs most frequently used in office-based practice: National Ambulatory Medical Care Survey, 1980 -- no. 79. Blood lead levels for persons 6 months-74 years of age: United States, 1976-80 -- no. 80. Medication therapy |

in office visits for hypertension: National Ambulatory Medical Care Survey, 1980.

| Titolo | Additive manufacturing of high-performance metals and alloys : modeling and optimization // edited by Igor Shishkovsky |
| Pubbl/distr/stampa | IntechOpen, 2018 London, England : , : IntechOpen, , [2018] ©2018 |
| ISBN | 1-83881-390-X 1-78923-389-5 |
| Descrizione fisica | 1 online resource (154 pages) : illustrations |
| Disciplina | 670 |
| Soggetti | Manufacturing processes Three-dimensional printing Alloys |
| Lingua di pubblicazione | Inglese |
| Formato | Materiale a stampa |
| Livello bibliografico | Monografia |
| Nota di bibliografia | Includes bibliographical references. |
| Sommario/riassunto | Freedoms in material choice based on combinatorial design, different directions of process optimization, and computational tools are a significant advantage of additive manufacturing technology. The combination of additive and information technologies enables rapid prototyping and rapid manufacturing models on the design stage, thereby significantly accelerating the design cycle in mechanical engineering. Modern and high-demand powder bed fusion and directed energy deposition methods allow obtaining functional complex shapes and functionally graded structures. Until now, the experimental parametric analysis remains as the main method during AM optimization. Therefore, an additional goal of this book is to introduce readers to new modeling and material's optimization approaches in the rapidly changing world of additive manufacturing of high-performance metals and alloys. |
