1.	Record Nr.	UNINA9910711180103321
	Autore	Wack John P
	Titolo	Keeping your site comfortably secure : an introduction to Internet firewalls / / John P. Wack, Lisa J. Carnahan
	Pubbl/distr/stampa	Gaithersburg, MD : , : U.S. Dept. of Commerce, National Institute of Standards and Technology, , 1994
	Descrizione fisica	1 online resource
	Collana	NIST special publication ; ; 800-10
	Altri autori (Persone)	CarnahanLisa J WackJohn P
	Lingua di pubblicazione	Inglese
	Formato	Materiale a stampa
	Livello bibliografico	Monografia
	Note generali	1994. Contributed record: Metadata reviewed, not verified. Some fields updated by batch processes. Title from PDF title page. Withdrawn.
	Nota di bibliografia	Includes bibliographical references.
	Sommario/riassunto	This document provides an overview of the Internet and security-related problems. It then provides an overview of firewall components and the general reasoning behind firewall usage. Several types of network access policies are described, as well as technical implementations of those policies. Lastly, the document contains pointers and references for more detailed information. The document is designed to assist users in understanding the nature of Internet-related security problems and what types of firewalls will solve or alleviate specific problems. Users can then use this document to assist in purchasing or planning a firewall.
