Note generali	"March 1981." "Statistics, based on data collected in 1976, are presented on the use of contraception by currently married women, never-married women with offspring in the household, and widowed, divorced, and separated women. Women who used contraception are shown by the method of contraception used, according to race and age of the woman and by various socioeconomic characteristics."
Nota di bibliografia	Includes bibliographical references (page 14).
