

1. Record Nr.	UNINA9910711617103321
Autore	Sanders Frank H.
Titolo	Analysis and resolution of RF interference to radars operating in the band 2700-2900 MHz from broadband communication transmitters // Frank H. Sanders [and four others]
Pubbl/distr/stampa	[Washington, D.C.] : , : U.S. Department of Commerce, National Telecommunications and Information Administration, , 2012
Descrizione fisica	1 online resource (xx, 123 pages) : illustrations (some color)
Collana	NTIA report ; ; 13-490
Soggetti	Broadband communication systems - United States Radar receiving apparatus - United States Radio - Interference Electromagnetic compatibility Broadband communication systems Radar receiving apparatus United States
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	"October 2012."
Nota di bibliografia	Includes bibliographical references (pages 67-68).
