

1. Record Nr.	UNINA9910711617503321
Autore	Mosher William D.
Titolo	Reproductive impairments among married couples: United States / / by William D. Mosher and William F. Pratt
Pubbl/distr/stampa	Hyattsville, Md. : , : U.S. Department of Health Human Services, Public Health Services, National Center for Health Statistics, , 1982
Descrizione fisica	1 online resource (iv, 51 pages) : illustrations
Collana	DHHS publications ; ; no. (PHS) 83-1987 Vital and health statistics. Series 23, Data from the national survey of family growth ; ; no. 11
Soggetti	Fertility, Human - United States Infertility - United States Miscarriage - United States Fertility, Human Health surveys Infertility Statistics. Statistics United States Statistics, Medical United States
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	"December 1982."
Nota di bibliografia	Includes bibliographical references (pages 17-18).

2. Record Nr.	UNINA9910557606403321
Autore	Xing Mengdao
Titolo	InSAR Signal and Data Processing
Pubbl/distr/stampa	Basel, Switzerland, : MDPI - Multidisciplinary Digital Publishing Institute, 2020
Descrizione fisica	1 online resource (226 p.)
Soggetti	Geography Research and information: general
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	Synthetic aperture radar (SAR) interferometry (InSAR) is an important remote sensing technology used for topographic mapping and deformation monitoring, and has created a new type of radar datum that has significantly evolved during the last couple of decades. This book includes the latest InSAR studies published in the Special Issue "InSAR Signal and Data Processing" of Sensors. We hope that readers of all levels will be able to gain a better understanding of InSAR as well as the when, how, and why of applying this technology.
