Sommario/riassunto

Depuis une trentaine d'années, dans le sillage de travaux sur l'histoire de la criminalité puis de la justice pénale, l'histoire des peines suscite un intérêt renouvelé. Les discours critiques de la fin du XVIIIe siècle comme les innovations pénales qu'ils engendrent ont fait l'objet de multiples recherches. Le moment semble venu pour un essai de structuration et de comparaison sur le temps long. Il s'agit dans cet ouvrage de reprendre l'histoire des peines dans une perspective intégrée et comparatiste. Cette approche, attentive aux travaux sur les peines médiévales, modernes et contemporaines s'appuie principalement sur les pratiques. Une première partie étudie l'évolution chronologique des systèmes de peines sur la longue durée. Un deuxième volet concerne la fonction du système de peines. Enfin, l'étude de ce système permet de comprendre selon quels mécanismes un type de peine parvient à s'imposer et à remplacer un autre type comme modèle punitif dans une société donnée.

Sommario/riassunto

These studies in early church history cover various aspects of the church life of early Christians. They focus on the second century. What did the second century Christian leaders say about faith, baptism, infant baptism, worship services, the Lord's Supper, prayer, singing, church organization, mercy and the role of women? New Testament texts bearing on the topic are listed at the beginning of each chapter. We are talking about the same community of people, the same church, as existed in the New Testament. Such writings have an important bearing on the interpretation of the Scriptures.
