

1. Record Nr.	UNINA9910713815503321
Autore	Frayer W. E.
Titolo	Florida wetlands : status and trends, 1970's to 1980's / / by W.E. Frayer and J.M. Hefner
Pubbl/distr/stampa	Atlanta, Georgia : , : U.S. Fish and Wildlife Service, Southeast Region, , 1991
Descrizione fisica	1 online resource (31 pages) : color illustrations
Soggetti	Wetlands - Florida Wetland conservation - Florida Wetland surveys - Florida Wetland conservation Wetlands Florida
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	"September, 1991."
Nota di bibliografia	Includes bibliographical references (page 25).
Sommario/riassunto	Since statehood in 1845, Florida's story has been one of man's battle against water. The United States Fish and Wildlife Service has major responsibility for the protection and management of migratory and endangered fish and wildlife and their habitats. They have inventoried the nation's wetlands with the purpose of developing and disseminating comprehensive data concerning the characteristics and extent of wetlands. This report presents results of a study of wetland trends in Florida for the 10-year period from 1974 to 1984.
