

1. Record Nr.	UNINA9910715077103321
Autore	Khan Umar Mahmood
Titolo	Extending constitutional rights to Pakistan's tribal areas // by Umar Mahmood Khan, Rana Hamza Ijaz, and Sevim Saadat
Pubbl/distr/stampa	Washington, DC : , : United States Institute of Peace, , 2021 ©2021
Descrizione fisica	1 online resource (23 pages) : color illustrations, one color map
Collana	Special report ; ; no. 492
Soggetti	Justice, Administration of - Pakistan Civil rights - Pakistan Civil rights Justice, Administration of Politics and government Pakistan Politics and government 1988- Khyber Pakhtunkhwa (Pakistan) Politics and government Pakistan Pakistan Federally Administered Tribal Areas
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	"April 2021."
Nota di bibliografia	Includes bibliographical references (pages 21-22).
Sommario/riassunto	When Pakistan's Federally Administered Tribal Areas were officially merged into Khyber Pakhtunkhwa Province in May 2018, the five million residents of the former tribal areas acquired the same constitutional rights and protections--including access to a formal judicial system--as Pakistan's other citizens. This report, based on field research carried out by the authors, explores the status of the formal justice system's expansion, finding both positive trends and severe administrative and capacity challenges, and offers recommendations to address these issues.

2. Record Nr.	UNINA9910557572903321
Autore	Kapliski Oleg
Titolo	Architecture and Engineering : The Challenges - Trends - Achievements
Pubbl/distr/stampa	Basel, Switzerland, : MDPI - Multidisciplinary Digital Publishing Institute, 2020
Descrizione fisica	1 online resource (361 p.)
Soggetti	Architecture The Arts
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	<p>The book is addressed to architects and civil engineers. Design and research are areas connecting their activities. The contents of the book confirm the fact that the interface between architecture and engineering is multidimensional. The ways of finding points of contact between the two industries are highlighted. This is favored by the dynamically changing reality, supported by new design paradigms and new research techniques. The multithreaded subject matter of the articles is reduced to six sections: Research Scopes, Methods, Design Aspects, Context, Nature of Research, and Economy and Cost Calculation. Each of the articles in these six blocks has its weight. And so, in the Nature of Research section, the following areas have been underscored: laboratory tests, in situ research, field investigations, and street perception experiments. The section Design Aspects includes design-oriented thinking, geometrical forms, location of buildings, cost prediction, attractor and distractor elements, and shaping spatial structures. The new design and research tools are an inspiration and a keystone bonding architects and engineers.</p>
