continuous location-routing problem by use of a self-organizing map;
Supplier selection and controlling using multivariate analysis Rainer
Lasch and Christian G. Janker Dresden University of Technology,
Dresden, Germany; Communication capability and attitudes toward
external communication of purchasing managers in Germany; Exploring
the performance effects of key-supplier collaboration;

Sommario/riassunto This is the second part of our special issue comprising research from
the Scientific Group of Logistics, Association of University Professors in
Management. The fundamental goals of the Scientific Group of
Logistics are the promotion of logistics in academic research and
education as well as the promotion of prospective candidates for
scientific positions. In respect to teaching, the following activities are
addressed:.. development of proposals for academic logistic education

as well as discussion of the elementary understanding of logistics;.
discussion of specific syllabi that can be used in
