variables on markers' perceived ease of use and acceptance of onscreen marking -- Chapter 13 The final validation study: A comparative picture of the ease of use and acceptance of onscreen marking by markers across subject areas -- Chapter 14 Conclusion.

Sommario/riassunto

This book discusses Hong Kong's use of onscreen marking (OSM) in public examinations. Given that Hong Kong leads the way in OSM innovation, this book has arisen from a recognised need to provide a comprehensive, coherent account of the findings of various separate but linked validation studies of onscreen public examinations in Hong Kong. The authors discuss their experience of the validation process, demonstrating how high-stakes innovation should be fully validated by a series of research studies in order to satisfy key stakeholders.
