Sommario/riassunto

Gender equality has been a major educational theme for the past two decades and has become interwoven with other policy themes, including those of marketisation and managerialism. Contributors to this strong collection are key researchers in their fields and seek to address the following questions:
* What patterns are discernible in the educational attainment of girls and boys over the past two decades?
* To what extent are changes attributable to gender equality policies?
* What form have gender equality policies taken in different parts of the UK?
* What has been the impact of Europe
