Autore	Cornelli Gabriele
Titolo	In search of Pythagoreanism [[electronic resource]] : Pythagoreanism as an historiographical category // Gabriele Cornelli
Pubbl/distr/stampa	Boston, : De Gruyter, 2013
ISBN	3-11-030650-6
Descrizione fisica	1 online resource (244 p.)
Collana	Studia Praesocratica ; ; 4 Studia prae-socratica, , 1869-7143 ; ; Bd. 4
Disciplina	182/.2
Soggetti	PHILOSOPHY / History & Surveys / Ancient & Classical Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Frontmatter -- Foreword -- Contents -- Acknowledgements -- Note -- Abbreviations -- Introduction -- 1 History of criticism: from Zeller to Kingsley -- 2 Pythagoreanism as a historiographical category -- 3 Immortality of the soul and metempsýchsis -- 4 Numbers -- Conclusion -- Bibliography -- Index of Topics -- Index of Passages -- Index of Names
Sommario/riassunto	The history of Pythagoreanism is littered with different and incompatible interpretations, to the point that Kahn (1974) suggested that, instead of another thesis on Pythagoreanism, it would be preferable to assess traditions with the aim of producing a good historiographical presentation. This almost fourty-year-old observation by Kahn, directs the author of this book towards a fundamentally historiographical rather than philological brand of work, that is, one neither exclusively devoted to the exegesis of sources such as Philolaus, Archytas or even of one of the Hellenistic Lives nor even to the theoretical approach of one of the themes that received specific contributions from Pythagoreanism, such as mathematics, cosmology, politics or theories of the soul. Instead, this monograph sets out to reconstruct the way in which the tradition established Pythagoreanism's image, facing one of the central problems that characterizes Pythagoreanism more than other ancient philosophical movements: the drastically shifting terrain of the criticism of the sources. The goal of

this historiographical approach is to embrace Pythagoreanism in its entirety, through - and not in spite of - its complex articulation across more than a millennium.
