

1. Record Nr.	UNINA9910716823503321
Autore	Guo Yi (Research engineer)
Titolo	Wind turbine drivetrain reliability assessment and remaining useful life prediction // Yi Guo, Lindy Williams, and Shawn Sheng
Pubbl/distr/stampa	[Golden, CO] : , : National Renewable Energy Laboratory, , [February 2021]
Descrizione fisica	1 online resource (13 pages) : illustrations (chiefly color)
Collana	NREL/PR ; ; 5000-79004
Soggetti	Wind turbines - United States - Testing Gearing - United States Reliability (Engineering) - United States
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	"Drivetrain Reliability Collaborative Annual Meeting 2021." "February 16-17, 2021."
Nota di bibliografia	Includes bibliographical references (page 13).
