1. Record Nr.    UNINA9910717089603321

   Titolo    Understanding Cybersecurity of Mobile Networks Act : report (to accompany H.R. 2685)

   Pubbl/distr/stampa    [Washington, D.C.] : , : [U.S. Government Publishing Office], , [2021]

   Descrizione fisica    1 online resource (7 pages)

   Collana    Report / 117th Congress, 1st session, House of Representatives ; ; 117-186

   Soggetti    Mobile communication systems - United States
   Information technology - Security measures - United States
   Data encryption (Computer science)
   Application software - United States
   System safety
   Legislative materials.

   Lingua di pubblicazione    Inglese

   Formato    Materiale a stampa

   Livello bibliografico    Monografia

   Note generali    "November 30, 2021."

   Nota di bibliografia    Includes bibliographical references.

| Sommario/riassunto | Collage Culture develops a comprehensive theory of the origins and meanings of collage and readymades in modern and postmodern art, literature, and everyday life. Demonstrating that the origins of collage are found in assembly line technologies and mass media forms of layout and advertising in early twentieth-century newspapers, Collage Culture traces how the historical avant-garde turns the fragmentation of Fordist production against nationalist, fascist, and capitalist ideologies, using the radical potential unleashed by new technologies to produce critical collages. David Banash adeptly surveys the reinvention of collage by a generation of postmodern artists who develop new forms including cut-ups, sampling, zines, plagiarism, and copying to cope with the banalities and demands of consumer culture. Banash argues that collage mirrors the profoundly dialectical relations between the cut of assembly lines and the readymades of consumerism even as its cutting-edges move against the imperatives of passive consumption and disposability instituted by those technologies, forms, and relations. Collage Culture surveys and analyzes works of advertising, assemblage, film, literature, music, painting, and photography from the historical avant-garde to the most recent developments of postmodernism. |

| Sommario/riassunto | This book constitutes the proceedings of the 25th International Conference on Implementation and Application of Automata, CIAA 2021, held in July 2021. Due to Covid-19 pandemic the conference was held virtually. The 13 regular papers presented in this book were carefully reviewed and selected from 20 submissions. The topics of the papers cover various fields in the application, implementation, and theory of automata and related structures. |
