UNINA9910717344303321 Autore Bloomfield Hanna E Titolo Safe and Effective Anticoagulation in the Outpatient Setting / / Hanna E Bloomfield, Timothy J Wilt, and Brent C Taylor Pubbl/distr/stampa Washington, D.C.:,: Department of Veterans Affairs (US),, 2011 Descrizione fisica 1 online resource (iii, 88 pages) 362.10973 Disciplina Soggetti Ambulatory medical care - United States **United States** Lingua di pubblicazione Inglese **Formato** Materiale a stampa Livello bibliografico Monografia Note generali "Evidence-based synthesis program." "February 2011." Nota di bibliografia Includes bibliographical references (pages 54-61). Sommario/riassunto The primary objectives of this systematic review were to: 1. Determine whether specialized anticoagulation clinics (ACC) are more effective and safer than care in non-specialized clinics (e.g., primary care clinics, physician offices) for management of long-term anticoagulation in adults; 2. Determine whether patient self testing (PST), either alone or in combination with patient self management (PSM), is more effective

and safer than standard care; and 3. Identify the risk factors for serious

bleeding in patients on chronic anticoagulant therapy.
