Autore	Quinones Ana R.
Titolo	Interventions to improve minority health care and reduce racial and ethnic disparities // Ana R. Quinones [and five others]
Pubbl/distr/stampa	Washington, DC : , : Department of Veterans Affairs, Health Services Research & Development Service, , 2011
Descrizione fisica	1 online resource (iii, 60 pages) : illustrations
Collana	Evidence-based Synthesis Program
Disciplina	362.1
Soggetti	Medical policy Minorities - Medical care United States
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	"Evidence-based synthesis program." "September 2011."
Nota di bibliografia	Includes bibliographical references.
Sommario/riassunto	Racial and ethnic disparities are widespread in the US health care system. A 2007 report from the Veterans Affairs (VA) Health Services Research & Development Service (HSR & D) Evidence-based Synthesis Program (ESP) found disparities were prevalent in a variety of clinical arenas within the Veterans Affairs health care system. The report identified several promising avenues for future interventions designed to reduce racial and ethnic disparities. The objectives of this review are to describe the state of disparities intervention research within the VA, glean lessons from systematic reviews of intervention research not limited to VA settings, and develop an organizing framework to describe studies in this field of research. This report is also intended to inform future disparities intervention research in the VA, as well as VA policies and programs to reduce disparities.
