

1. Record Nr.	UNINA9910719768903321
Titolo	Hypothalamic Regulation of Obesity / / Rosalia Rodriguez-Rodriguez, Cristina Miralpeix, editors
Pubbl/distr/stampa	[Place of publication not identified] : , : MDPI - Multidisciplinary Digital Publishing Institute, , 2023
ISBN	3-0365-7392-5
Descrizione fisica	1 online resource (254 pages)
Disciplina	616.398
Soggetti	Obesity - Psychological aspects Obesity - Treatment
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	The manuscripts published in this reprint provide new insights into the hypothalamic neuronal and non-neuronal pathways involved in the pathophysiology and development of obesity and related diseases such as diabetes. Via four original papers, six review manuscripts, and one perspective, this reprint will substantially contribute to the identification of novel therapeutic targets in the hypothalamus and novel approaches to combatting the progression of human obesity.
