

1. Record Nr.	UNINA9910720061903321
Titolo	Celebrating the International Year of Mineralogy : Progress and Landmark Discoveries of the Last Decades / / edited by Luca Bindi, Giuseppe Cruciani
Pubbl/distr/stampa	Cham : , : Springer Nature Switzerland : , : Imprint : Springer, , 2023
ISBN	9783031288050 9783031288043
Edizione	[1st ed. 2023.]
Descrizione fisica	1 online resource (361 pages)
Collana	Springer Mineralogy, , 2366-1593
Disciplina	549
Soggetti	Mineralogy Petrology Materials science Materials Science
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	Editorial -- Discovery of fullerenes and quasicrystals in nature -- The Evolution of Mineral Evolution -- Mineral Informatics: Origins -- The Discovery of New Minerals in Modern Mineralogy: Experience, Implications and Perspectives -- Structural and chemical complexity of minerals: the information-based approach -- Predicting HP-HT Earth and planetary materials -- Structural mechanisms stabilizing hydrous silicates at deep-Earth conditions -- Discovering High-pressure and High-temperature Minerals -- Mineralogy of Planetary Cores -- Going inside a diamond -- Mineralogy of returned sample from C-type near-Earth asteroid (162173) Ryugu -- Mineral discoveries that changed everyday life -- Hydrogen, the principal agent of structural and chemical diversity in minerals.
Sommario/riassunto	This volume celebrates mineral sciences and what are considered the most important progresses and breakthroughs in this discipline. Authoritative authors, who, in most cases, are the direct discoverers recount the steps of their research, which represent landmark developments of mineralogy and mineralogical crystallography.
