

1. Record Nr.	UNINA9910720062103321
Titolo	Cyber Security Intelligence and Analytics : The 5th International Conference on Cyber Security Intelligence and Analytics (CSIA 2023), Volume 2 // edited by Zheng Xu, Saed Alrabaaee, Octavio Loyola-González, Niken Dwi Wahyu Cahyani, Nurul Hidayah Ab Rahman
Pubbl/distr/stampa	Cham : , : Springer Nature Switzerland : , : Imprint : Springer, , 2023
ISBN	9783031317750 9783031317743
Edizione	[1st ed. 2023.]
Descrizione fisica	1 online resource (599 pages)
Collana	Lecture Notes on Data Engineering and Communications Technologies, , 2367-4520 ; ; 173
Disciplina	005.8
Soggetti	Computational intelligence Engineering - Data processing Cooperating objects (Computer systems) Data protection Computational Intelligence Data Engineering Cyber-Physical Systems Data and Information Security
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Ecological Balance Construction and Optimization Strategy Based on Intelligent Optimization Algorithm -- The Design of Virtual Reality Systems for Metaverse Scenarios -- Design and Development of Health Data Platform for Home-Based Elderly Care Based on AAL -- Logistics Distribution Optimization System of Cross-border e-Commerce Platform based on Bayes-BP Algorithm -- Application of FCM Clustering Algorithm in Digital Library Management System -- Logistics Distribution Path Planning and Design based on Ant Colony Optimization Algorithm -- The Development of Power Grid Digital Infrastructure Based on Fuzzy Comprehensive Evaluation -- Virtual Reality Technology in Indoor Environment Art Design -- Application of Digital Virtual Art in 3D Film Animation Design Effect -- Digital Media

Art and Visual Communication Design Method Under Computer Technology -- Instrumentation Automation Control System Based on HSV Space and Genetic Algorithm -- Biological Tissue Detection System Based on Improved Optimization Algorithm -- Application of Computer Network Security Technology in Software Development -- The Application of Financial Technology in the Intelligent Management of Credit Risk under the Background of Big Data -- Measurement and Prediction of Carbon Sequestration Capacity Based on Random Forest Algorithm.

Sommario/riassunto

This book provides the proceedings of the 5th International Conference on Cyber Security Intelligence and Analytics. The 5th International Conference on Cyber Security Intelligence and Analytics (CSIA 2023) is an international conference dedicated to promoting novel theoretical and applied research advances in the interdisciplinary agenda of cyber security, particularly focusing on threat intelligence and analytics and countering cybercrime. Cyber security experts, including those in data analytics, incident response and digital forensics, need to be able to rapidly detect, analyze and defend against a diverse range of cyber threats in near real-time conditions. We are organizing the CSIA 2023 at Radisson Blu Shanghai Pudong Jinqiao Hotel. It will feature a technical program of refereed papers selected by the international program committee, keynote address.
