Sommario/riassunto

Advances and problems in the field of compiler compilers are considered in this volume, which presents the proceedings of the third in a series of biannual workshops on compiler compilers. Selected papers address the topics of requirements, properties, and theoretical aspects of compiler compilers as well as tools and metatools for software engineering. The 23 papers cover a wide spectrum in the field of compiler compilers, ranging from overviews of new compiler compilers for generating quality compilers to special problems of code generation and optimization. Aspects of compilers for parallel systems and knowledge-based development tools are also discussed.

Sommario/riassunto	Ce livre est un hommage, rendu a deux geographes physiciens prematurement disparus, par vingt-six collegues, amis et eleves. Poursuivre leurs combats, leurs recherches, leurs rêves ... pour ne pas oublier. Ils partageaient le souci d'un enseignement de la geographie physique renovee, initiant les jeunes a une demarche rigoureuse, clairement differenciee des sciences connexes par le souci permanent de spatialisation. Aussi la premiere partie de cet ouvrage est consacree a la place de la geographie dans les cursus et la place de la geographie physique dans la geographie. Ils avaient parcouru, travaille, aime le monde mediterraneen. Milieux instables, divers, eminemment geographiques puisque les faits naturels et culturels y sont indissociables dans les paysages. Il est donc logique de suivre ce sillon maritime et de presenter des recherches recentes sur ces regions.

Sommario/riassunto	"In direct, clear language, Anne-Marie Delcambre shows that many of the prohibitions and constraints as well as the problems and difficulties of the Muslim religion in the world today are not simply fundamentalist aberrations but, on the contrary, derive directly from the very essence of Islam itself. Many of the elements of these proscriptions, interdictions, and commands are, in fact, to be found in the Qur'an and in authentic Muslim tradition. This is, indeed, the case in such matters as the discriminatory status assigned to Jews and Christians, the call to Holy War (Jihad) and even to murder, the position of women, the uncritical and anti-historical approach to the fundamental texts of Islam, the place of the Prophet, etc."--BOOK JACKET
