

1. Record Nr.	UNINA9910727280003321
Titolo	Advances in Tracheal Intubation // Jessica A. Lovich-Sapola (and three others), editors
Pubbl/distr/stampa	London : , : IntechOpen, , 2023
ISBN	1-80356-861-5
Descrizione fisica	1 Online-Ressource (118 pages)
Disciplina	617.533
Soggetti	Trachea - Intubation - Instruments
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	1. Introductory Chapter: Advances in Tracheal Intubation -- By Kelly Lebak -- 2. Video-Assisted Laryngoscopy and Its Effects on Difficult Airway Management -- By William Pender, Jessica A. Lovich-Sapola and Kasia P. Rubin -- 3. Ultrasound (US) Imaging Use in the Management of the Difficult Tracheal Intubation -- By Ajay Singh, Ankita Dhir, Shiv Lal Soni, Rekha Gupta, Naveen B. Naik, Kashish Garg, Venkata Ganesh and Narender Kalaria -- 4. A Paradigm Shift of Airway Management: The Role of Video-Assisted Intubating Stylet Technique -- By Hsiang-Ning Luk, Hsuan-Nu Luk, Jason Zhensheng Qu and Alan Shikani -- 5. Difficult Airway in Obstetric Patients -- By Glenardi Glenardi.
Sommario/riassunto	Tracheal intubation is a common medical procedure. It is relatively simple to accomplish, although there are cases in which tube placement is difficult or even impossible. This book provides a comprehensive overview of endotracheal tube placement with chapters on advanced techniques, ultrasound use for airway management, airway management techniques for obstetric patients, and much more.
