

1. Record Nr.	UNINA9910727287603321
Titolo	Echinococcosis : new perspectives // edited by Tonay Inceboz
Pubbl/distr/stampa	London : , : IntechOpen, , 2023
ISBN	1-83768-506-1
Descrizione fisica	1 online resource (144 pages)
Disciplina	616.964
Soggetti	Echinococcosis Parasitic diseases in pregnancy
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	1. Introductory Chapter: Changes in Eco-System Change Echinococci - "One Health Concept" against Echinococci -- 2. Perspective Chapter: Echinococcosis - An Updated Review -- 3. New Insight into the Immunity during Echinococcus granulosus Infection -- 4. Natural Products as Therapeutic Option for Echinococcosis -- 5. Perspective Chapter: Prospects for Pharmacological Therapy of Hepatic Alveolar Echinococcosis -- 6. Current Concepts in Curative Surgery for Cystic Echinococcosis of Liver -- 7. New Energy Devices in the Treatment of Cystic Echinococcosis -- 8. Perspective Chapter: Primary Cystic Echinococcosis of the Pancreas.
Sommario/riassunto	Echinococcosis is a neglected parasitic disease caused by Echinococcus spp. of the family Taeniidae. The prevalence of the disease is increasing worldwide due to industrialization and climate change. This book provides a comprehensive overview of echinococcosis, including information on epidemiology, geographic distribution, diagnosis, management, and prevention.
