

1. Record Nr.	UNINA9910728389003321
Autore	Cheung Sai On
Titolo	Construction Incentivization : Beyond Carrot and Stick // edited by Sai On Cheung, Liuying Zhu
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2023
ISBN	3-031-28959-5
Edizione	[1st ed. 2023.]
Descrizione fisica	1 online resource (297 pages)
Collana	Digital Innovations in Architecture, Engineering and Construction, , 2731-7277
Altri autori (Persone)	ZhuLiuying
Disciplina	624.068
Soggetti	Civil engineering Construction industry—Management Civil Engineering Construction Management
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Incentivization: beyond competence -- Incentivization or dis-incentivization -- Multi-agent incentivising mechanism for integrated project delivery -- Incentivizing relationship investment for mega project management -- Would raising psychological well-being incentivize construction workers? -- Approaches to incentivize commitment to immersive technology construction -- Means to incentivize safety compliance at work -- Incentivization to mitigate schedule impact due to COVID and beyond -- Interweaving incentivizers and dis-incentivizers for construction dispute negotiation settlement -- Would bridging power asymmetry incentivize willingness to mediate -- Revisiting incrementalism to incentivize land supply agenda reform in Hong Kong -- Normative principles of construction incentivization planning.
Sommario/riassunto	This book proposes ways to make construction project incentive schemes effective. In this book, construction incentivization is used as a collective term that includes all forms of incentive arrangements aiming to engender extra effort of the contracting parties for the improvement of project performance. This book addresses two questions: i) why so many construction incentive schemes are not

delivering the desired outcome? and ii) what will make incentive works under different circumstances? This book contributes to the body of knowledge in construction incentivization by offering conceptualization, showcases and practice suggestions including guidelines for the planning of construction incentive schemes.
