

1. Record Nr.	UNINA9910728520203321
Titolo	Multiple regression
Pubbl/distr/stampa	Philadelphia, USA : , : Wharton, , [2017] ©2014
ISBN	1-4739-9700-3
Descrizione fisica	1 online resource (1 video file (7 min., 27 sec.)) : sound, colour
Collana	Fundamentals of quantitative modeling ; ; 6
Disciplina	001.422
Soggetti	Regression analysis Quantitative research Nonfiction television programs. Internet videos.
Lingua di pubblicazione	Inglese
Formato	Videoregistrazione
Livello bibliografico	Monografia
Note generali	Previously issued: 2014.
Sommario/riassunto	Richard Waterman explains how to use a multiple regression model to make predictions based on more than one factor. Because they use more than one factor, multiple regression models are in three dimensions instead of two.
