

1. Record Nr.	UNINA9910729794203321
Autore	Ghosh Arnab
Titolo	Biomarkers in Neurodegenerative Diseases 2.0 // Arnab Ghosh
Pubbl/distr/stampa	Basel : , : MDPI - Multidisciplinary Digital Publishing Institute, , 2023
Descrizione fisica	1 online resource (206 pages)
Disciplina	616.8
Soggetti	Neurosciences
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	<p>This book follows up on the previous volume focusing on the different biomarkers for neurodegenerative diseases. It includes original research works and review articles focusing on an improved understanding of disease mechanisms. It also aims to identify aspects of early therapeutic intervention for enhanced disease management. Some critical approaches include studies involving human tissue samples, mouse disease models, and different imaging techniques. These studies present the essential information necessary to address such pathological conditions in the future.</p>
