Titolo	Capital adequacy beyond Basel [[electronic resource]] : banking, securities, and insurance // edited by Hal S. Scott
Pubbl/distr/stampa	New York, N.Y., : Oxford University Press, 2005
ISBN	0-19-988352-1 1-4237-2217-5 0-19-803794-5 9786610560394 1-280-56039-8
Descrizione fisica	1 online resource (355 p.)
Altri autori (Persone)	ScottHal S
Disciplina	332.1/068/1
Soggetti	Bank reserves - Government policy Insurance - Reserves - Government policy Banks and banking - State supervision Financial institutions - State supervision Bank loans Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references (p. 328-329) and index.
Nota di contenuto	Capital regulation for position risk in banks, securities firms, and insurance companies -- Capital adequacy in insurance and reinsurance -- Consolidated capital regulation for financial conglomerates -- Using a mandatory subordinated debt issuance requirement to set regulatory capital requirements for bank credit risks -- No pain, no gain? effecting market discipline via "reverse convertible debentures" -- The use of internal models: comparison of the new Basel credit proposals with available internal models for credit risk -- Sizing operational risk and the effect of insurance -- Enforcement of risk-based capital rules.
Sommario/riassunto	The research contained in this book covers some key issues at stake in the capital requirements for insurance and securities firms. Contributors analyse the use of subordinated debt internal models, and rating agencies in addition to examining the effect on capital of

reinsurance and similar instruments.

Titolo	Advances in NMR and MRI of Materials // Igor Sersa
Pubbl/distr/stampa	Basel : , : MDPI - Multidisciplinary Digital Publishing Institute, , 2023
Descrizione fisica	1 online resource (388 pages)
Disciplina	540.72
Soggetti	Chemistry - Research
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	<p>The development of science has led to the emergence of many new modern materials, which also require more advanced tools for their characterization and analysis. NMR and MRI are certainly among such tools, also due to their continuous development, which has made them more powerful, versatile, and sensitive. With these advances, these two techniques have been able to address many open problems associated with the emergence of new materials. This reprint comprises a collection of advanced NMR and MRI techniques and methods, together with a demonstration of their application to the target materials for which they were designed and optimized. These are presented in 25 original, peer-reviewed articles for the Special Issue in the MDPI journal Molecules. The topics covered include MR methods in pharmaceutical research, NMR in cement research, MR methods in wood research, diffusion in materials, characterization of materials by NMR relaxometry, NMR spectroscopy of materials, and MRI of materials.</p>

Sommario/riassunto	<p>Accueillir n'est pas inné: cela s'apprend, s'organise et se manage. Notion pivot des bibliothèques, la fonction accueil est souvent réduite aux transactions de documents ou fondue dans le terme de médiation. L'ambition de ce volume est de renouveler l'approche de l'accueil en proposant un projet de professionnalisation de l'accueil, porté collectivement, au service des publics. Conseils, démarche utilisateur, certification, intelligence collective, hospitalité, usure... comment impulser une dynamique d'accueil au sein des équipes? Comment développer les compétences relationnelles des bibliothécaires? Comment accompagner les équipes dans des missions où les compétences techniques passent désormais au second plan? À travers les récits de nombreuses initiatives, au sein de bibliothèques universitaires comme de la lecture publique, cet ouvrage explore les multiples moyens d'investir l'accueil de façon constructive. Il plaide en faveur d'une «symétrie des attentions» : professionnaliser l'accueil a autant de répercussions positives sur le bibliothécaire qu'il en présente pour l'utilisateur du service. Coordonné par Héloïse Courty, conservatrice des bibliothèques, consultante et formatrice spécialisée dans la qualité d'accueil, ce volume réunit une quinzaine d'auteur-e-s, dont une chercheuse, un cadre de l'Assurance maladie, une cadre pédagogique, une psycho-sociologue du travail, un ancien libraire, un consultant, des bibliothécaires, qui partagent leur expérience de terrain et leurs conseils méthodologiques.</p>
