Sommario/riassunto

This book consists of selected papers from the International Conference on Economics, Business and Sustainability (ICEBS) 2023 which brings together academics to exchange their research results and share experiences on all aspects of economics, business and sustainability. The conference delivered a specific focus and significant breakthroughs in the rapid global economic rebound. The event appealed to scholars, academics, researchers, experts, development actors, practitioners and university students to join a part and share outlooks, experiences, research findings and the recent research trends in the milieu of social sciences. The ICEBS 2023 is expected to gain mutual understanding and insights, offering solutions and policy recommendations.
