Sommario/riassunto	This book constitutes papers presented during the workshop session titled "CyberSec4Europe - Research to Innovation: Common Research Framework on Security and Privacy" during the Privacy Symposium hosted by Università Ca' Foscari in Venice, Italy, in April 2022. The 11 peer-reviewed selected papers present findings, conclusions, research,

and recommendations in various security-related areas, from highly technical ones (e.g., software and network security) to law and human-centric ones (e.g., governance and cybersecurity awareness).
