   Edizione   [1st ed. 2021.]

   Descrizione fisica   1 online resource (450 pages)

   Collana   Advances in Intelligent Systems and Computing, , 2194-5357 ; ; 1266

   Disciplina   371.33

   Soggetti   Computational intelligence
                           Engineering—Data processing
                           Education
                           Computational Intelligence
                           Data Engineering
                           Education, general

   Lingua di pubblicazione Inglese

   Formato   Materiale a stampa

   Livello bibliografico   Monografia

   Sommario/riassunto   This book contains accepted papers presented at ICEUTE 2020 held in
                           the beautiful and historic city of Burgos (Spain), in September 2020.
                           The 11th International Conference on EUropean Transnational
                           Education (ICEUTE 2020) has been a meeting point for people working
                           on transnational education within Europe. It has provided a stimulating
                           and fruitful forum for presenting and discussing the latest works and
                           advances on transnational education within European countries. After a
                           thorough peer-review process, the ICEUTE 2020 International Program
                           Committee selected 44 papers which are published in these conference
                           proceedings achieving an acceptance rate of 41%. Due to the COVID-19
                           outbreak, the ICEUTE 2020 edition was blended, combining on-site and
                           on-line participation. In this relevant edition, a special emphasis was
                           put on the organization of five special sessions related to relevant
                           topics as Role of English in Transnational Education and Teacher

Training, Personalization and ICT: a Path to Educational Inclusion, Innovation and Research Findings in Engineering Higher Education, Practical Implementations of Novel Initiatives, and Innovation in Computer Science Higher Education. The selection of papers was extremely rigorous in order to maintain the high quality of the conference, and we would like to thank the members of the Program Committees for their hard work in the reviewing process. This is a crucial process to the creation of a high standard conference, and the ICEUTE conference would not exist without their help.
