Sommario/riassunto	<p>A desert passion, reluctant lovers, and the memory of a night they can never forget. The first book in Tara Quan's Safe Harbor series, More Than Strangers is a suspenseful ride that will keep you turning the pages of this sizzling, contemporary romance. Scorching desert heat, ice-cold champagne, and a world of opulence--the perfect setting for a one-night stand. Certain they will never meet again, two strangers agree to casual, no-strings sex that turns into something more. Jason Reynolds has his life mapped out, and it doesn't include a smart-mouthed redhead on a mission to save the world. A security specialist at the top of his game, he is on the cusp of wealth and power. Love is a distraction he simply can't afford. Struggling to bury memories of an unforgettable night, Nulli O'Hara chases her dream to a city fraught with violence and death. Six months later, she becomes a kidnapping target, and Jason is the man sent to keep her safe. More Than Strangers charts the journey of two reluctant lovers from the sands of the Middle East to the slums of South Asia. In a perilous world more exotic than fantasy, Jason and Nulli must fight to live and see their happily ever after. Content Notes: Spicy, Light BDSM, Spanking</p>

Sommario/riassunto

This book provides state-of-the art research on expatriate management from a European perspective. Considering issues related to the different phases of expatriation and comprehensive contemporary topics of expatriate management, the chapters present a long overdue holistic approach to the field. Rather than just publishing a counterweight to the predominant North American literature, Expatriate Management includes critical analyses of each chapter written by a number of renowned North American scholars to review and contribute to the trans-Atlantic dialogue.

Sommario/riassunto

Just about fifty years ago, in its declaration on religious freedom at the Second Vatican Council, the Catholic Church programmatically dispensed with political coercion as a means of enforcing its claim to truth. This act of self-imposed restriction with regard to religious claims to truth is exceptional in the history of religions. It is still extremely difficult to explain even today how such a traditional institution as the Catholic Church could have altered its position so fundamentally. In this volume the authors dispute how the Church came to its position, what the reasons and motives were for its repositioning, what shape this process of change took, and the steps involved in the change: What were the characteristics, circumstances and dynamics of the path of Catholicism to recognizing religious freedom?
