Sommario/riassunto	This book brings together fresh economic thinking for China at a turning point for the country. Decades of growth have brought new prosperity to China; economic turbulence in 2022 has led to calls for new thinking. 20 of China's top economists came together at 2022's Wudaokou Forum with innovative ideas and radical new perspectives; this book collects the best of the forum, in a volume that will be of interest to economists, China scholars and journalists. Ju Jiandong, Unigroup Chair Professor at PBC School of Finance in Tsinghua University, Director of Center for International Finance and Economic Research (CIFER) and Center for Green Finance Research (CGFR) of Tsinghua NIFR. After receiving his doctorate in Economics from Pennsylvania State University in 1995, he served as professor at University of Oklahoma and professor at School of Economics and Management in Tsinghua University. He was a resident scholar in

International Monetary Fund from 2007-2009, and was the Dean of International School of Business Administration, Shanghai University of Finance and Economics from 2014 to 2017. His work has been published in American Economic Review, Journal of Monetary Economics, Journal of International Economics, American Economic Journal and other journals.
