The Asian Yearbook of International Economic Law (AYIEL) 2022 addresses the rapidly evolving field of international economic law with a special focus on Asia and the Pacific. This region has long been and remains a major engine of the world economy; at the same time, it is characterized by a host of economies with varying developmental levels, economic policies and legal jurisdictions. The AYIEL 2022 especially focuses on trade law, investment law, competition law, dispute settlement, economic regulation and cooperation, and regional economic integration, as well as other legal developments in Asian countries.
