

1. Record Nr.	UNINA9910699395403321
Titolo	Leading change in literacy [[electronic resource]] : Southeastern district stories / / written for SERVE by C. Steven Bingham ... [and others]
Pubbl/distr/stampa	[Greensboro, N.C.] : , : SouthEastern Regional Vision for Education, , 1998
Descrizione fisica	1 online resource : digital, PDF file
Altri autori (Persone)	BinghamCharles Steven
Soggetti	Reading (Elementary) - North Carolina Reading (Secondary) - North Carolina Literacy programs - North Carolina School improvement programs - North Carolina
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Title from title screen (viewed Jan. 22, 2010).
Nota di bibliografia	Includes bibliographical references (page 20).

2. Record Nr.	UNINA9910734856003321
Titolo	The Bethesda System for Reporting Thyroid Cytopathology : Definitions, Criteria, and Explanatory Notes / / edited by Syed Z. Ali, Paul A. VanderLaan
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2023
ISBN	3-031-28046-6
Edizione	[3rd ed. 2023.]
Descrizione fisica	1 online resource (292 pages)
Disciplina	621 616.44
Soggetti	Pathology Internal medicine Surgery Internal Medicine
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Overview of Diagnostic Terminology and Reporting -- Nondiagnostic/Unsatisfactory -- Benign -- Atypia of Undetermined Significance -- Follicular Neoplasm -- Follicular Neoplasm, Hürthle Cell Type -- Suspicious for Malignancy -- Papillary Thyroid Carcinoma and Variants -- Medullary Thyroid Carcinoma -- Poorly Differentiated Thyroid Carcinoma -- Undifferentiated (Anaplastic) Carcinoma and Squamous Cell Carcinoma of the Thyroid -- Metastatic Tumors, Lymphomas, and Miscellaneous Lesions -- Clinical Perspectives and Imaging Studies -- Molecular and Other Ancillary Tests.
Sommario/riassunto	The previous edition of The Bethesda System for Reporting Thyroid Cytopathology provided important updates and advances in the practice of thyroid cytopathology. It was inspired by new developments in the field of thyroid cytopathology since the publication of the first edition in 2010. These included revised clinical guidelines for the management of patients with thyroid nodules, the introduction of molecular testing as an adjunct to cytopathologic examination, and the reclassification of the non-invasive follicular variant of papillary thyroid

carcinoma as non-invasive follicular thyroid neoplasm with papillary-like nuclear features (NIFTP). This new third edition provides updates to the current reporting terminology and diagnostic criteria, including new information on ancillary molecular testing, as well as imaging findings and clinical management. This book provides a more unified approach to diagnosing and reporting thyroid FNA interpretations. It simplifies the reporting structure by settling on just one name for each of the six categories and aligning terminology with the most recent classification of thyroid tumors by the World Health Organization. Written by experts in the field, The Bethesda System for Reporting Thyroid Cytopathology, Third Edition aims to inspire advances in thyroid cytopathologic diagnosis and the betterment of patients with thyroid nodular disease. It serves as a reference guide not just for pathologists, but also endocrinologists, surgeons, and radiologists.
