Sommario/riassunto	"Who are the Europeans? How do they think? What values do they hold dear? What binds them and what divides them? This atlas summarizes the outcomes of the European Values Study, combined with results from the World Values Survey, two projects that have measured values over the past three decades." "The European Values Study project is run by researchers from 33 countries and is administered by Tilburg University, the Netherlands." "The Atlas presents European ideas and

beliefs in the form of graphs, charts and maps. Values such as democracy, freedom, equality, human dignity and solidarity are held by almost all Europeans, but the survey points to differing views about marriage, religion, work and such topics as euthanasia, happiness, sexuality and death." "This unique Atlas covers all European nations from Iceland to Turkey, from Portugal to the Ukraine. It graphically illustrates the rich diversity that is Europe."--Jacket.
